NR-ELIBILITY REVIEW FORM

Continuation Sheet No. 1

HA-989

From the description, the house is a two story, rectangular shaped, gabled slate roofed (east to west), rubble-stone house, which is three bays wide and two bays deep. A wood framed wing was added on the east end. An exterior cinder block chimney is on the west end and an interior chimney is on the east end. The main entrance is in the center bay on the south side. The west entrance has a wood portico/porch. Fenestration is 6/6 sash windows with granite lintels and 3/3 attic windows.

Records indicate that the house was in existence as early as 1858. A title search describes the property as early as 1796, although the house itself is not indicated.

In addition, the house was described in the undated MHT Inventory Form as being in good condition and altered. It was observed that this property appears unchanged from the description in the Inventory Form.

Nothing in the documentation reviewed for this Determination of Eligibility indicates that the Property is associated with events or persons that would qualify it for registration under Criteria A or B, the stone house and its wood-framed dependency represent an asset of local interest and importance and are considered to meet the qualifications of Criterion C for Design and Construction.

Here is a well-maintained house not unlike Mr Smith's HA 987, basically. Porches have been removed, doorways changed and yet the good material and simple lines of this "classic" have been desirable in any age.
